

## Oct. 3rd E-NEWS

Now that the landscape projects we've been working on are almost complete, it's time for me to get my spring nursery stock bookings done for the Garden Centre. If you have any special plants you'd like me to order in (or try to source) for you, let me know.

We'll be juicing our apples this Friday with the Mobile Juice Factory and they will be custom juicing here for pre-booked customers on Saturday. I'm not sure if they're fully booked but if you're interested call them at 250 503 4731 to check for yourself. To learn more about the process check this link:

**NOW IN APPLE LANE GIFT SHOP:**

✦ **CALDREA** ✦

You've seen it on Oprah, it's been written about in many magazines and it ranked near the top in Good Housekeeping testing, and now we have it in store. Who said that functional can't be beautiful?? I don't have room here for product details but you can find out more at:

<http://www.caldrea.com/about-us>

<http://www.caldrea.com/Safety-and-Standards>

James and I would like to extend our best wishes for a wonderful time of fellowship with family and friends as we celebrate, and are grateful for, the bounty that we have in this country. We will be open regular hours on Saturday **but will be closed Sunday** (so we can get together with our own family) and will be open **on Monday from 9 until 5**. While the extended cold weather this spring resulted in a smaller-than-usual crop (because the bees were too cold to get out to pollinate the blossoms), the quality and size of our apples is excellent. Harvest is almost 3 weeks later than it has been in recent years though, so many of the varieties that would normally be ready for picking aren't available yet. That said, we do have Macs, Jonamacs, Honeycrisps, Hanna Specials, Elstars, Galas and Sintas. Hopefully we'll also have some Jonagolds and Spartans picked by the weekend. If some of these varieties are not familiar to you, check out the Products page our website for more details.
